

Deflating the Bubble

Paytomat offers real life applications to various cryptocurrencies by enabling local stores and online merchants to accept payments in crypto. We combine our unique technology with a blockchain loyalty program covering both parts of our ecosystem: the merchant and the end customer.

PTM Coin	PTX Token
----------	-----------

Incentivizes merchants to accept payments in crypto by providing flexible loyalty program and additional value to merchants.

Digital asset on top of PTM blockchain that incentivizes end customers to pay with crypto within the Paytomato ecosystem.
